PT. NUSA BAHARI PERKASA

A growing and sustainable sea transportation services company

VISION & MISSION THE COMPANY VALUES

Company Values

Vision

Being a national shipping company that develops international standards and sustainable. Support the smooth distribution of goods using sea transportation that is feasible, organized, fast and reliable. With a well-structured operational system, it supports a wide marketing reach and is perfectly accessible.

Mission

- Forming and developing human resources who have good ethics, are intelligent and capable.
- Develop advanced and useful maritime technology.
- Always provide the best, fast and reliable service.
- Being a friendly and caring partner to customers.

ABOUT US

PT. NUSA BAHARI PERKASA was established on 5 July 2012, which has a focus on sea transportation business. In 2013 we have finished building a new ship, with the type of Tug Boat & Barge (230 feet). We operate owned ship to transport coal, fertilizer, construction equipment, palm shells and others.

In early 2021, we re-organized the company in an effort to expand our business and operations. With the spirit of youth who are superior and competent, we develop a lean and effective organization, develop a monitoring and operational system that is more focused on the efficiency and smooth operation of the company.

Currently we are ready to expand the business with the initial step of adding owned and leased fleets to increase the company's profitability. We offer a wide range of sea transportation services with various sizes of barges to reach distribution and national development, with a fleet that is excellent and worthy to be proud of.

PROFILE OVERVIEW

Our management are young people who have the experience and enthusiasm to develop and advance the company.

Billy Christian

Chief Executive Officer

Mr. Billy holds a Bachelor of Arts Entrepreneurship from University of Greenwich and a Master of Business Administration Global Business from Coventry University London Campus. He skilled in business development and marketing, driving profitable growth for businesses across the globe.

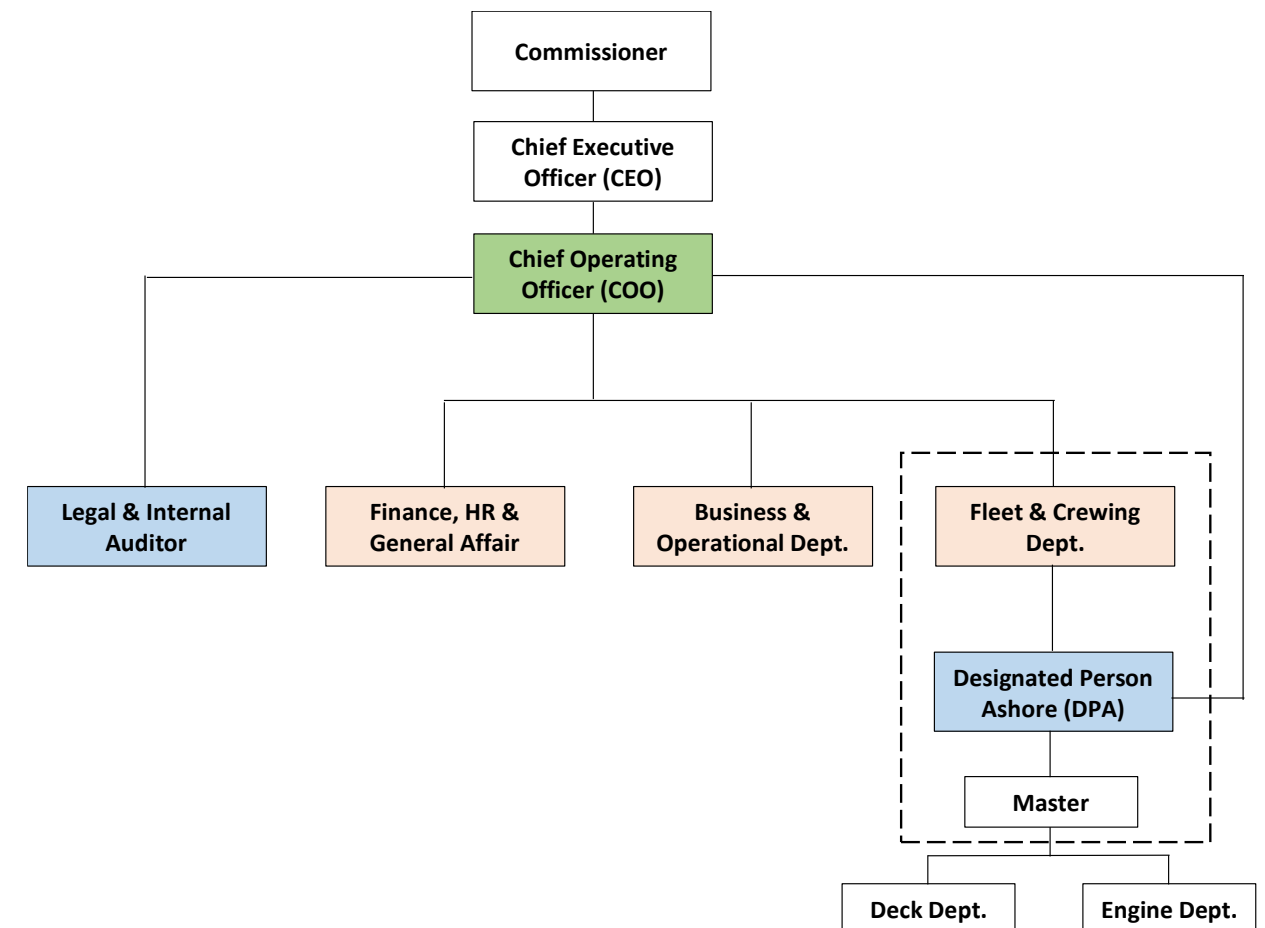

Jeffry Ardiansyah P.

Chief Operating Officer

Mr. Jeffry graduated as a cum laude naval architect and a marine engineer from a reputable technical university in Indonesia. He has a proven track record of excellence not only in the technical solutions but also in the operation, finance and management. He holds Marine Superintendent, DPA, CSO, Internal Auditor ISM Code & ISPS Code certifications to ensure the technical, safety and security of our ship operations.

ORGANIZATION

Our Team

We have a lean but effective organization. We continue to develop quality human resources with several internal, external training and required certifications. Some of the certifications held include :

- Marine Surveyor
- Marine Superintendent
- Designated Person Ashore (DPA)
- Company Security Officer (CSO)
- Internal Auditor ISM Code
- Internal Auditor ISPS Code
- ISO 19011:2018
- Brevet A & B

Our Fleet

Currently we have a fleet of Tug Boat and Barge types (230 Feet & 270 Feet). We prioritize the safety and seaworthiness of ships with excellent maintenance, referring to applicable regulations and high company standards.
